Building Automation

The Smart Home solution
to control your building with ease

CHOOSE THE SERVER THAT BEST SUITS YOU

We offer three different lines of product: **EVE X1**, **EVE X3** (also with aluminium case) and **EVE X5**. You can also get just the server software (EVE Suite) and use your own hardware (**Raspberry Pi** and **Virtual Machine**) as a central unit / backup solution.

CONNECT ANY SYSTEM OR DEVICE

EVE can **manage several different protocols** at the same time. EVE is compatible with the most **well-known protocols** for home and building automation, both **standard** and **proprietary**.

PLAN AND DESIGN YOUR USER INTERFACE

EVE configurator software provides the most effective tools to **program** the control unit, **quickly configure** the installation and **design countless graphic interfaces** for **countless users**.

UPDATE THE SYSTEM WITH NEW FEATURES

It is possible to reach any EVE server anywhere in the world and **add new features** to the system. System integrators can **update installations** anytime without even leaving the office.

WHAT'S INCLUDED IN EVE SUITE LICENSE?

EVE Server - connects to building device, runs logics and provides access for EVE Manager and EVE Remote app.

EVE Manager - simple, intuitive and pleasant tool for system configuration.

EVE Remote - iOS, Android, Mac OSX and Windows OS app for controlling and monitoring your building.

Protocols/Drivers: KNX, Modbus, Z-Wave, EnOcean, UPnP, VIMAR By-Me, BTicino MyHome, IRTrans, El.Mo., Vivaldi Group, SimonsVoss, Intesis, Clivet, Euroterm, Aernova, IP cameras, TCP / IP.

EVE is affordable. Due to its favourable price EVE will become a standard solution of management and control in new commercial and residential buildings, simultaneously providing the highest level of comfort and control.

ENJOY YOUR SMART BUILDING

Control your building anytime, anywhere with ease

You can use the **free EVE Remote app** with any mobile device - *iPhone, iPad, Android* tablets and smartphones - or desktop - *Mac OSX and Windows OS* . You can install the EVE app on **as many devices as you want**, with no limitations, free of charge. Access the installation by using the user interface style you prefer: **Classic** or **Map**.

Experience EVE Remote. *Download EVE Remote and connect to our "Live Demo" account to take the control of our demo corner in real time from anywhere in the world.*

CLASSIC style: Pleasant navigation, first-class design, ease of handling, quick setup.

MAP style: Graphical pages navigation, free icon positioning, resizable icons, free design.

How best to try the product

We think the best way to test our product is to use it that is why we distribute a demo version of our server (EVE Suite Demo License). The demo server is full-featured, in this way you can try the product and decide if EVE is what you are looking for.

Get the server image from our website and easily install it on a Pc (virtual machine) or Raspberry Pi device. The demo server will expire after 7 days. Reinstall it as many times as you need to fully understand and master the product.

TRY EVE RIGHT NOW!

Play with our live demo

Our showroom is fully automated and uses EVE as supervision system. The installation currently integrates KNX, Vimar By Me, IRTrans and Z-Wave technologies. To anyone who wants to experience the speed of EVE multibus system and evaluate its first class design, we recommend downloading *EVE* app and connect to our "Live Demo" account. You will immediately take control of our demo corner in real time from anywhere in the world.
